Education

Bachelor of Technology-E.C.E

Indian Institute of Information Technology, Nagpur *Dec 2021 – May 2025*

Experience

Sitegpt | SDE Intern May 2024 – Aug 2024

- Developed and launched **8+** AI/NON AI tools **(ROI calculators, FAQ generators, email signature generators, etc.)** using **Remix**, **Langbase**, and **Tailwind CSS**, as a **Marketing funnel** for the main product, overall increasing influx of users to Sitegpt.
- Designed automation workflows with **React Flow** and implemented **cron jobs** for automated retraining of files.
- Performed product analysis on **SiteGPT** and optimized **SEO content** of all Tools, leading to **25%** increase in organic traffic.

Projects

Testifya | Chat with your Documents

- Solely led the development of a cutting-edge **SaaS** platform using **Next.js** for frontend and backend development and implemented **Kinde Auth** for **authentication**, ensuring robust access control and user management
- Implemented **Uploadthing** for efficient storage of upto **2GB** PDF files, optimizing data management and ensuring scalability for future growth and integrated the Utilized **Pinecone** for storing **vector databases**, streamlining data retrieval and processing, and achieving a **40%** improvement in overall performance.
- Integrated the **OpenAI API gpt 3.5 turbo** to enhance the platform's functionality with AI capabilities, resulting in over **95% accuracy** in generating results based on the uploaded PDF content.. and leveraged **Langchain** for **message memory**, providing **personalized and interactive chat functionality**, and fostering enhanced user engagement and retention.
- Orchestrated the integration of **Shadcn** for styling, resulting in a **20%** increase in **user satisfaction** and engagement through visually appealing interfaces.

Search Engine for coding problems |

- Scraped 2000+ coding problems from Leetcode using **Python's Selenium** and **BeautifulSoup**
- Implemented **TF-IDF** algorithm to analyze and rank the keywords entered by the user in scraped questions
- Developed a user-friendly web interface using **HTML**, **CSS**, and **JavaScript** and integrated it with a search algorithm and Implemented server-side functionality by setting up a server using the **Flask framework**

Technical Skills

General: Data Structures and Algorithms, Object-Oriented Programming, Web development, Competitive programming, Operating system, Computer networks
Languages:C/C++, Python, SQL (Postgres), JavaScript, HTML/CSS, Rust, Java
Frameworks: React, Node.js, Flask, WordPress, Redux
Developer Tools: Git, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ, Android studio, Firebase, MongoDB, Prisma

Achievements and Extras

- Achieved **Global Rank 208** in Codechef Starters93 — **Global Rank 298** in Codechef Starters80 **(2023)**
- Achieved **Rank 9583** out of **27604** participants in the qualification and Rank **6019** out of **12330** in Round 1 of **Meta Hacker Cup** — **(2022)**
- Secured **AIR 495** in ISRO ICC **(ISRO Cyberspace Competition)** In All Indian Quiz — **(2020**)
- Running and Managing an anime community **(MANGA MANSION)** and **Newsletter** with more than **200+** active readers — **(2023)**

Coding profiles

- **Codechef**
- **Codeforces**
- **Geeks for Geeks**
- **Leetcode**
